### **POLICY**

It is the intent of the Superior-Greenstone District School Board to make available to the community, the School Board's buildings, facilities and grounds provided such use does not conflict with school programs and is economically feasible.

The Board's initial obligation is to the pupils of the Superior-Greenstone District School Board, hence in the event of possible conflicts with use, the policy of the Board will be to provide facilities for pupils, not non-school groups. This is not withstanding that the principal will attempt to schedule events as to avoid conflicts with usage.

The board will recover costs incurred which are associated with the use of any given building, facility or grounds as appropriate and outline in the Procedures: General Guidelines for Use found in the Management Guidelines of this policy manual.

The Board will provide fair and equitable access to available buildings, facilities and grounds for the various members of the community.
