

## Why Take an E-learning Course?

An E-Learning can be a positive alternative to credits achieved in a traditional classroom environment. All courses are Ontario credit courses and are taught by qualified Ontario teachers. There are many reasons why traditional courses are not an option:

- Timetable conflict
- Course availability
- Work schedule
- Family Commitments

E-learning courses allow students to accommodate their needs via a flexible program. You can “attend” your class whenever you want throughout the day as E-courses are available 24 hours a day, seven days a week as long as you have access to the Internet. Post secondary and many workplaces are placing a greater demand on individuals to study and work in an on-line environment. The E-learning skills acquired during the course of a credit are life-long skills. Other benefits to taking an e-course are:

- ✓ there are a wide variety of courses offered
- ✓ flexibility of hours
- ✓ convenience
- ✓ freedom to work from anywhere
- ✓ you do not have to sit in a “classroom”
- ✓ teacher support available
- ✓ technical support available
