

Let's Get Started!

Kindergarten: The Extended Day Program

The Extended Day program provides parents of students in kindergarten to age twelve with access to before and after school care in our designated Full Day-Early Learning Schools. Currently, our Full Day-Early Learning Schools are B.A. Parker Public School in Geraldton and Margaret Twomey Public School in Marathon.

Extended Day programs are available where sufficient requests warrant establishing a program. District School Boards may run their own programs at a designated full day kindergarten site or where there is an existing, eligible third party child care operator in the school, the school board can enter into an agreement with that child care organization.

At this time, the following agencies provide before and after school care in our Full Day-Early Learning school communities:

Margaret Twomey Public School	Marathon Children and Family Center	807 229 3031
-------------------------------	-------------------------------------	--------------

B.A. Public School (Geraldton)	Greenstone Childcare Centers	807 854 1744
--------------------------------	------------------------------	--------------

Contact the local childcare centers for additional information and rate schedules.
